Section 77 Protect Action : 7 October 2016

The Federation of Unions of South Africa (FEDUSA) has noted that NEDLAC certified that the application of COSATU complied with the provisions of Section 77 of the Labour Relations Act. This provision provides protection for their members to participate in the protected protest action and the normal practice of no work and no pay applies.

FEDUSA was not part of the proceedings in NEDLAC and therefore our members are not protected. FEDUSA will therefore not participate in the protest action to be held on 7 October 2016.

FEDUSA is the largest politically non-aligned trade union federation in South Africa and represents a diverse membership from a variety of sectors in industry. See www.fedusa.org.za for more information.
